The Fact Sheet is 62 pages and the permit is 44 pages. But both documents are such exciting reading, I'm sure they will seem much shorter!

Hi Douglas-

I apologize for the long delay in getting back to you on this. Don thinks he could help with the review for Dewey Burdock depending on the timing. Ex. 6 Personal Privacy (PP)

Ex. 6 Personal Privacy (PP)

 Valois, would you mind giving us an estimate of the time needed so that Don and I can discuss how we can accomplish this?

Thanks and again, sorry for the delay in responding.

-Kimberly

Subject: Review Of Dewey Burdock Class V Area Permit Documentation

Hi Kimberly: while Sarah has done a great job doing the enforcement review of the Class III permit and aquifer exemption documents for this project, she suggested that Don Breffle review the Class V documentation for enforceability, etc. since the permit conditions are modeled on past deep Class I permits we have issued.

Can you give us a sense if Don will have any time to do this? There is no immediate urgency, but having this work done within the next few weeks or so would be very helpful. Valois could probably give you the best estimate for the number of hours we are requesting.

Thanks!
